

Improved Jira Diff

Description

The Improved Jira Diff plugin creates a new visual and colorful changelog for tickets.

New benefits for users

Instead of the standard before-after display the user gets a single column solution, which shows the changes of the ticket in a visually appealing way.

Reactivating the standard module

If you want to keep the standard history tab available you can re-enable it in the system administration.

1. *Administration* → *Add-ons* → *Manage add-ons*
2. Select "All addons" from the dropdown menu
3. Search for "Issue Panels Plugin"

4. Under *System add-ons* → Select 3 of 4 modules enabled → hover over "Change History Tab Panel" and click the enable button
